

MAR 30 2011

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: Michael F. Greene
Application No: 10/585,239
Filing Date: 06/29/2006
Title: Device for Establishing Communications Interoperability At An Incident Site Including Means For Recording Crisis Incidents
Atty. Docket: 20040138

Examiner: Nishant B. Divecha
Art Unit: 2466

Notice to the Examiner

This application may include technically-related subject matter and/or claims that are similar to other applications attached in the listing to this notice. The Examiner is requested to review the entire file histories of these applications, including cited references, Office Actions, Responses, etc., and is asked to contact Applicant's Attorney if the Examiner would like the Applicant to supply copies of any or all of the information included in any of these applications. For any of these applications, if Applicant's Attorney is not contacted by the Examiner with such a request, then it will be assumed that the Examiner has reviewed or will review the file content of the application. The identification of the above-identified application is not a waiver of secrecy for any of the applications.
